COMPLETION OF THE HANFORD FEDERAL FACILITY AGREEMENT AND CONSENT ORDER (HFFACO) INTERIM MILESTONE M-90-10, "READY TO ACCEPT PLACEMENT OF ILAW IN ILAW DISPOSAL FACILITY" DUE AUGUST 31, 2008

On October 4, 2006, the construction system testing, Resource Conservation and Recovery Act Permitting, and facility turnover to operations was completed for the Integrated Disposal Facility. This completes HFFACO Milestone M-90-10, "Ready to Accept Placement of ILAW Waste in ILAW Disposal Facility." Completion of the facility construction represents a significant step by all agencies to bring disposal capability forward for eventual production of ILAW. The completed facility is being maintained in standby and the Washington State Department of Ecology and the U.S. Department of Energy, Office of River Protection are maintaining the permit until the facility is needed.

If you have any questions, you may contact me, or your staff may contact T. Zack Smith, Assistant Manager for Tank Farms Projects, (509) 373-9112.

Sincerely,

for Roy J. Schepens, Manager  
Office of River Protection
